

To Whom It May Concern:

It has come to my attention that K-LOVE is in jeopardy of being taken off the air. I can't even begin to tell you what a loss that would mean for our community. This station brings so much hope to so many lost people. It is so nice to know that when I turn on my radio I get to hear music that is not offensive or vulgar. I am helping raise my 3 year old grand daughter and the only station we listen to is K-LOVE. She gets to hear music that is positive and uplifting, not about sex and vulgar language. I also think that the different non-profit organizations that get to get the word out about their organization is a great way for people to get involved in their community. The radio personnel have become part of my family. I love listening to each of them share about their own lives. This station is more than a place to listen to music, it is a place for people to tune in and be encouraged and lifted up. We live in such sorrow times with so much hate and discrimination that we need a place to go and hear positive and encouraging words. I have a teenager who listens to other radio stations that I have to constantly tell him to turn it off because of the lyrics or profanity. Even though he won't admit it I know that when he is in my car and if forced to listen to K-LOVE it makes him feel good.

The news that is announced on K-LOVE is always reporting information that is current, trustworthy, and most of all I love hearing news about good things that are going on in our community and world. I hope that my concerns will be heard and that K-LOVE will continue to be played in my community.

Sincerely,

Lisa Gomez
